备注Note 1: 审核时间是依高、中及低OHSMS风险审核显示。The audit time is based on high, medium and low OHSMSM risk audits.

备注2 Note 2: 表OHSMS 1之人员数须视为连续, 而非阶段式变化。若绘制成图, 线应从较低层带的值开始。图之起始点须是1人2.5日(如上)。若计算结果有小数点, 则日数须调整到最接近之半日(例如: 5.3审核日算做5.5审核日; 5.2审核日就算5审核日)。The number of people in table OHSMS 1 must be considered as continuous, not as a phase change. If plotted, the line should start with the value of the lower band. The starting point of the map must be 2.5 persons for 2.5 days (as above). If the calculation result has a decimal point, the number of days must be adjusted to the nearest half day (for example: .5.3 audit date is calculated as 5.5 audit date; 5.2 audit date is calculated as 5 audit days).

备注3Note 3: 有效人员数包含在认证范围内参与的所有人员(正式、临时及兼职), 包括在每个班次工作之轮班人员。若包括在认证范围内, 亦应包含承揽商/分包商执行工作或与工作有关活动, 受组织管制或影响, 会影响组织OHSMS绩效之人员。The number of effective personnel includes all personnel (formal, temporary, and part-time) who participate in the verification scope, including the shift personnel who work in each shift. If included in the scope of verification, it should also include the contractor/subcontractor performing work or work-related

activities that are subject to organizational controls or influence that will affect the organization's OHSMS performance.

备注4Note 4: 有效人员数是做为计算OHSMS审核时间的基础。决定有效员工数时, 考虑的因素包括兼职人员、轮班制员工、行政与各类办公人员, 以及类似或重复过程(备注5)。「若是季节性作业(例如收成活动、度假村及旅馆等), 有效人员数之计算应以通常会在旺季到工之人员为基础。」有效人员数不得未经考虑相关风险, 即因雇用大量非技术人员而减少(备注7)。The number of valid staff is the basis for calculating the OHSMS audit time. When deciding on the number of effective employees, the factors to be considered include part-time employees, shift-workers, administrative and office workers, and similar or repeated processes (Note 5). "If seasonal operations (such as harvest activities, resorts and hotels, etc.), the calculation of the number of effective staff should be based on the staff who normally go to work during peak season." Decrease in technical staff (Note 7).

备注5Note 5: 范围内类似或重复过程 Similar or Repeating Processes in Range

a) 若有高比例人员执行被认为类似或相同之活动/职位时(例如清洁工、保全、销售、电话中心等), 因人员暴露在类似的OHSMS风险, 则可能允许在认证范围内, 减少公司之间可连贯与一致地应用的人员数。If a high percentage of people perform activities/positions that are considered similar or identical (such as cleaners, maintenance, sales, call centers, etc.), personnel may be allowed to reduce within the scope of verification due to exposure to similar OHSMS risks. The number of people that can be applied consistently and consistently between companies.

b) 执行重复工作之员工群组会降低注意力, 并因而提高相关的OHSMS风险程度(例如, 安装、组装、包装、分类等), 则为了可能减少有效人员数而采用之方法应予以文件化, 包括员工之任何活动/职位之OHSMS风险之评鉴。The group of employees performing the repetitive work will reduce their attention and thus increase the related OHSMS risk level (for example, installation, assembly, packaging, classification, etc.). The methods adopted in order to reduce the number of effective personnel shall be documented. , including OHSMS risk assessment of any activity/position of the employee.

备注6 Note 6: 轮班制员工Shift employee

CAB应决定最能评鉴客户活动全部范围之OHSMS实施成效的审核时机, 包括需要在正常工作时间以外审核及各种轮班模式。此应取得客户同意。The CAB should determine the timing

of audits that can best evaluate the effectiveness of OHSMS implementation across the full range of client activities, including the need for audits and various shift patterns outside normal working hours. This should obtain client consent.

CAB须确保审核时间的任何改变均不影响审核之有效性(决定OHSMS审核时间的起始点应基于有效人员数予以鉴别，然后再根据适用于被审核客户的重要因素加以调整，并给予每项因素加减权重，以修订基数。在任何情形下，确立OHSMS审核时间之依据，包括所做之调整，均应予以记录。CAB须确保审核时间之任何变动均不影响审核的有效性。若产品或服务之实现是一班制过程，则CAB对每班之审核程度视每班完成之过程而定，并考虑到相关之OHSMS风险及客户证明的每班管制水平。为使审核有效实施，在第一个认证周期期间，至少应审核正常上班时间内及时间外各一班。后续周期的追查审核期间，CB可基于组织OHSMS之公认成熟度，决定不审核第二班。可能时，建议调整延后审核的开始时间，以便可在8小时的审核时间内涵盖两班。考虑到不审核其他班之风险后，应将正当理由文件化。)。The CAB must ensure that any change in the audit time does not affect the validity of the audit (the starting point for determining the OHSMS audit time should be identified based on the number of effective personnel, and then adjusted according to the important factors applicable to the audited client and given each item Addition and subtraction of weights to the revision of the base In any case, the basis for establishing the OHSMS audit time, including the adjustments made, should be recorded.CAB must ensure that any change in audit time does not affect the validity of the audit. The implementation of the service is a one-shift process, and the degree of CAB auditing for each shift depends on the completion process of each shift, taking into account the related OHSMS risks and the level of control for each class certified by the client. During a verification cycle, at least one audit shall be performed during the normal working hours and outside of the time. During the follow-up audit of the follow-up cycle, CB may decide not to audit the second shift based on the recognized maturity of the organization's OHSMS. When possible, it is recommended to adjust the delay. The start time of the post-audit so that it can cover two shifts at the eight-hour audit time, taking into account the risk of not auditing other classes. Documents should be justified.)

备注7 Note 7: 临时非技术人员 Temporary non-technical staff

此问题通常只在技术水准低，可能雇用相当数量非技术人员，替代自动化过程的国家适用。在此情形下，其他认证方案(QMS、EMS)，可能减少有效人员数。此种减少原则上是被

	华认标准技术服务（苏州）有限公司 CCATS (SuZhou) Co., Ltd	编号 No.: CCATS-WI-16
	公开文件-管理体系认证审核时间 Management system certification audit time	版本 Version: A2

认为不适用于OHSMS，因为非技术人员之雇用可能就是OHSMS风险的来源。若有例外情形，做出减少的原因应予以记录，并在评鉴时提供给AB。This problem is usually only applied at a low technical level and may employ a considerable number of non-technical personnel and countries that replace the automation process. In this case, other verification schemes (QMS, EMS) may reduce the number of effective personnel. This reduction is in principle considered not to be applicable to OHSMS because the employment of non-technical personnel may be the source of OHSMS risk. If there are exceptions, the reasons for the reduction should be recorded and provided to AB during the evaluation.
